PROFESSIONAL SUMMARY

Frontend Developer with over 2 years of professional experience building data-rich web applications using Angular, TypeScript, and React. Strong analytical foundation from a Masters in Mathematics, complemented by hands-on UI/UX implementation skills. Deliberate career transitioner who has consistently invested in growth — currently completing a Full Stack Development program at Scaler Academy and actively sharpening Data Structures & Algorithms on LeetCode. Seeking frontend or full stack opportunities where clean code and thoughtful user experience both matter.

EXPERIENCE

UI/UX Developer · **Inquizity Metanoia LLC** Nov 2022 – Jul 2024

Note: On maternity leave from Mar 2023

- Developed new display types and generalized code in a code generator, improving reusability using C# and Angular 11.
- Integrated client-requested features and functionalities into the web platform, collaborating closely with the design team.
- Transformed website UI to align with wireframe specifications, contributing to a consistent and polished user experience.
- Addressed and resolved UI/UX bugs, improving application stability and end-user satisfaction.
- Contributed to abstraction and generalization of Web API and code generator components in C#.

Tech: HTML · TypeScript · Angular 11 · PrimeNG · C# · SQL

Career Break · Mar 2023 – 2024 Maternity leave and personal recovery

Web Developer Intern · **Inquizity Metanoia LLC** Jan 2022 – Oct 2022

- Integrated additional features and functionalities into the web application as per client specifications.
- Developed new display types to enhance data readability and documented implementation details.
- Transformed the website's user interface to align with wireframe specifications.

Tech: HTML · TypeScript · Angular 11 · PrimeNG · SQL

Career Break · Jan 2020 – Jan 2022 Deliberate career transition into software development (COVID period); completed web dev certifications and self-directed study

Technical Support Representative · **IBM** Aug 2019 – Jan 2020

- Managed and resolved technical support tickets for end users of a client's enterprise software product.
- Diagnosed technical issues by gathering information from users and coordinating with internal technical teams for timely resolution.
- Served as the primary point of contact between end users and technical teams, ensuring clear communication and follow-through.

EDUCATION

Masters in Mathematics

St Francis College for Women, Hyderabad · Nov 2017 – Apr 2019 · CGPA: 7.8

Bachelor of Science — Mathematics, Statistics & Computer Science

St Francis College for Women, Hyderabad · Oct 2014 – Apr 2017 · 74%

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C#, VB.NET

Frontend: HTML, CSS, SCSS, Angular, React

Design Tools: Figma

Database: SQL, SPSS

Currently Learning: Full Stack Development (MERN), Data Structures & Algorithms (LeetCode)

CERTIFICATIONS & TRAINING

Full Stack Development — Scaler Academy · *In Progress*

Database and SQL — Scaler · *Jan 2026*

Responsive Web Design — freeCodeCamp · *Oct 2020*
